WORK EXPERIENCE

Full Stack Developer — TechScale

Aug 2025 – Present | Lahore

- Built and maintain the company **HRMS** (hrms.techscale.io) with **React, TypeScript, Node.js, NestJS, MySQL** and **AWS S3** for attendance, leave and employee records of 100+ employees.
- Built an **AI bot** inside the HRMS: a **read-only** assistant that answers plain-language prompts by fetching employee **attendance**, **records** and **HR policy** information, with no ability to change data.
- Designed and documented **REST APIs** with **role-based access control (RBAC)**; wrote API use cases and test cases for reliable front-end/back-end integration.
- Test every feature before release: **manual, regression and sanity testing**, bug tracking in **Jira** and fix verification with the team.
- Set up a **CI/CD pipeline** with **GitHub Actions** to run tests and deploy builds automatically.
- Debugged and optimised existing code for performance; work in **Agile** sprints and take part in code reviews.

Front End Engineer — Social Swirl

Jun 2024 – Sep 2024 | Lahore

- Converted **Figma** designs into responsive, cross-browser **React.js** components styled with **Tailwind CSS**.
- Integrated APIs with the backend team and verified responses manually and with **Postman**.

Web Developer Intern — Codemo

Jun 2023 – Aug 2023 | Lahore

- Built responsive front-end pages and features with **HTML, CSS, JavaScript** and **PHP (Laravel)**.
